

March 13, 2020

The health and well-being of our customers and employees is our primary concern. The Public Health Agency of Canada (PHAC) has assessed the public health risk associated with Coronavirus (COVID-19) as low for Canada. Public health risk is continually reassessed as new information becomes available.

We are reviewing preventative measures with all employees and ensuring they have all necessary supplies. We are also reviewing additional steps which include frequent wipe downs of equipment and delivery devices.

At EDPRO we are committed to maintaining the reliable and outstanding levels of service our customers have come to expect. At present we do not anticipate any delays or disruption to propane deliveries. We will continue to monitor updates provided regarding COVID 19 and take all necessary measures.

For more information, please contact our Customer Service department.
